

Bun Bun Bake Shop – Homework 6A

Rough Sketches

Kara (Tippins) Dor

Rough Sketches

My original sketches mirrors closely the first iteration of my high fidelity prototype. While I did an appropriate job of displaying the cart items, I felt it could be improved upon because I required users to go through additional buttons hiding key content.

For my second iteration, following feedback, I redid my header, and focused on displaying key content like price, the quantity (and subsequent adjustments to it) in easy to navigate spaces on my design.

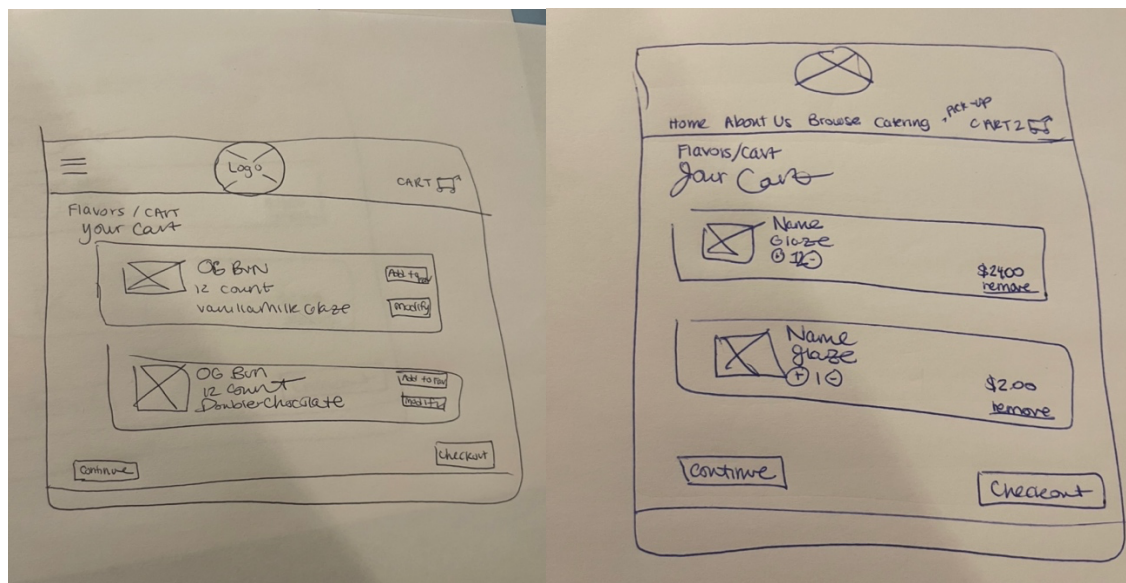

Figure 1. On the left – the original cart sketch. On the right – the new cart sketch iteration.
